

## **Java Assignment -1**

**Write a Java Program for Menu driven Bank Application:**

The program should display following menu:

1. dispBalance()
2. depositAmt(double amt)
3. withdrawAmt(double amt)
4. exitSystem: System.exit(0)

**Implement following OOP Java concept:**

1. Encapsulation: Class & Object with Access Modifier(public & private)
2. Constructor : parameterized
3. Polymorphism: Method Overloading & Constructor Overloading
