About TechFest 2026

TechFest 2026 is the annual technical festival organized by the Department of Computer Science and Engineering. The fest brings together students from across the country to compete, learn and showcase their technical skills.

The event will be held on 14th November 2026 at the College Main Campus. Participants can register individually or as a team.

Technical Events

- Code Sprint - Competitive Programming Contest
- Hackathon - 24 Hour Build Challenge
- Robo War - Robotics Battle Arena
- Web Design Challenge
- Tech Quiz

Seats are limited, so **early registration is recommended**.
